- HaloCode Kit
- HaloCode Add On Pack
- Snap On Tinkering lab
- Cyber Pi
- AirBlock

Visit Our Website For More

BDS Education empowers schools and colleges to establish skill-development labs focused on coding, robotics, AI, and related technologies.

They provide class-specific learning materials, helping institutions integrate these critical subjects into their curriculum.

Aligned with NEP 2020, BDS Education addresses the growing demand for coding and robotics labs in schools—a need that currently faces on-ground implementation challenges—by providing practical, scalable solutions.
